CROWNTECH SURFACE FINISHINGS PRIVATE LIMITED		
CROWNTECH	RAW MATERIAL PROCUREMENT POLICY	Doc. No : CT/PUR/P/01 Revision No : 00 Date of Issue : 07.10.2026

The organization is committed to procuring quality raw materials from approved suppliers based on quality, cost, delivery, and technical capability. All procured materials shall comply with customer-approved specifications and applicable statutory, regulatory, and customer-specific requirements. Incoming materials shall be verified for quality, quantity, batch identification, and shelf life before use. The organization shall ensure proper material identification, traceability, storage, and inventory control. Supplier performance shall be monitored periodically, and corrective actions shall be initiated for nonconformities (If required). The organization shall comply with applicable conflict minerals regulations and customer-specific requirements by obtaining relevant declarations from suppliers and ensuring that materials are not sourced from prohibited or non-compliant sources. All procurement and supplier compliance records shall be maintained, and any changes to materials or suppliers shall be subject to appropriate evaluation and customer approval wherever required.
